

# SecureDrive® KP

## Hardware Encrypted External Portable Drive

- **FIPS 140-2 Level 3 Validated: Certificate #3297**
- Hardware-Encrypted XTS-AES 256-bit
- User Authentication Via On-Board Keypad
- Host OS Independent. Compatible with all USB 3.0/3.1/2.0 Ports
- Admin & User Modes
- Brute Force, Anti-Hacking Self Destruction
- Inactivity AutoLock, Read-Only Mode, Bootable
- Preloaded With DriveSecurity® Antivirus (by ClevX®)

## FEATURES

### HOST OS INDEPENDENT

SecureDrive® KP will work with any OS. There are no drivers or software to update; all encryption and authentication are performed directly on the drive.

### SLIM SECUREDRIVE® DESIGN

At 12.5mm, SecureDrive® is the thinnest portable encrypted hard drive on the market. Combined with an enlarged ergonomic keypad, the SecureDrive® design and ease of use are unmatched.

### WEAR-RESISTANT KEYPAD

Special coating covers the keys on the SecureDrive® KP keypad to mask key usage and prevent potential attackers from guessing the most commonly used keys.

### ADMIN AND USER MODES

Setting up an Admin PIN will allow Admin to regain access to the data on the drive if the user is no longer available, and set policies such as Read Only and Inactivity Auto-Lock.

### INACTIVITY AUTOLOCK

To protect against unauthorized access when the drive is connected to a host computer and unattended, the drive can be set to automatically lock after a pre-set amount of time of inactivity between 1 and 60 minutes.

### BRUTE-FORCE, ANTI-HACKING PROTECTION

Entering an incorrect password ten consecutive times triggers the brute-force hacking detection which will crypto-erase the passwords, all user data, and drive formatting.

DESIGNED & ASSEMBLED

**IN THE USA**

## SPECIFICATIONS

Capacity:	HDD: 500GB - 5TB; SSD: 250GB - 16TB
Cryptographic Processes:	XTS-AES 256-bit Hardware Encryption (OS independent)
Dimensions (L x W x D):	Slim: 127mm x 77mm x 12.5mm - Standard: 127mm x 77mm x 20.5mm
Interface:	USB 3.0 (3.1 & 2.0 compatible)
Power Supply:	BUS powered
Certifications:	RoHs, FCC, CE, FIPS 140-2 Level 3 Validated
Warranty:	HDD: 2-year limited - SSD: 3-year limited
Password Policy:	7-15 Digit PIN
System Compatibility:	Windows, iOS, Android, Linux, Chrome, Thin Clients, Embedded Systems (No software or drivers needed)
