

SecureUSB® KP

Hardware Encrypted USB Flash Drive

- **FIPS 140-2 Level 3 Validated: Certificate #3522**
- Hardware-Encrypted XTS-AES 256-bit
- User Authentication Via On-Board Keypad
- Host OS Independent. Compatible with all USB 3.0/3.1/2.0 Ports
- Admin & User Modes
- Brute Force, Anti-Hacking Self Destruction
- Inactivity AutoLock, Read-Only Mode, Bootable
- IP57 Dust and Water Resistant
- Preloaded With DriveSecurity® Antivirus (by ClevX®)
- Free MediaSaver App (Android)

FEATURES

HOST OS INDEPENDENT

The SecureUSB® KP will work with any OS. There are no drivers or software to update; all encryption and authentication are performed directly on the drive.

IP57 CERTIFIED DUST & WATER RESISTANT

The revolutionary IP57 rated design includes a rugged extruded aluminum sleeve that is dust and water resistant. The crush resistant body protects the USB from physical damage.

WEAR RESISTANT KEYPAD

Special coating covers the keys on the SecureUSB® KP keypad to mask key usage and prevents potential attackers from guessing the most commonly used keys.

ADMIN AND USER MODES

Setting up an Admin PIN will allow the Admin to regain access to the data on the drive if the User is no longer available. Admins can also set policies such as Read-Only and Inactivity AutoLock .

INACTIVITY AUTOLOCK

To protect against unauthorized access when the drive is connected to a host computer and unattended, the drive can be set to automatically lock after a pre-set amount of time of inactivity between 1 and 60 minutes.

BRUTE FORCE ANTI-HACKING SELF DESTRUCTION

Entering an incorrect password ten consecutive times triggers the brute force hacking detection which will crypto-erase the passwords, all User data, and drive formatting.

MEDIASAVER APP

Quickly transfer video and photos from Android gallery

HIPAA

SPECIFICATIONS

Capacity:	8GB - 128GB
Cryptographic Processes:	XTS-AES 256-bit Hardware Encryption (OS independent)
Dimensions (L x W x D):	20mm x 10mm x 77mm
Weight	Approx. 22 g
Interface:	USB 3.0 (3.1 & 2.0 compatible)
Power Supply:	Lithium-Ion Polymer Battery 3.7v 38mAH
Certifications:	RoHs, FCC, CE, FIPS 140-2 Level 3 Validated
Waterproof:	IP57
Warranty:	3 year limited
Password Policy:	7-15 Digit Pin
System Compatibility:	Windows, iOS, Android, Linux, Chrome, Thin Clients, Embedded Systems (No software or drivers needed)
