

SecureUSB BT

Quick Start Guide

Welcome to SecureUSB™ BT Model, our app-operated hardware encrypted USB drive that's OS-independent and controlled via smartphone (iOS, Android).

Installing the App

Download and install DataLock® App from either Apple's App Store or Google Play.

Apple
App Store

Google
Play

	Red LED is on solid	The USB is locked, or may indicate procedure failed			Represents the LED on the USB
	Red LED is blinking	Locked, connected to smartphone.			Represents the icon in the app. Green = success or unlocked. Red = failed or locked
	Blue LED	Unlocked If blinking = transferring data.			

Adding the SecureUSB BT to the App

1. Plug in the USB and then start the app.
2. Tap to add the USB to the app.
3. Tap the USB name.
4. Follow the on-screen instructions.

If you must unplug the drive, restart this procedure.

Unlocking the SecureDrive

CAUTION: Possible loss of data, settings, and password. After 10 failed attempts to unlock the drive, it will reset to a blank drive. Refer to *Brute Force Hacking* in the Owner's Manual.

1. With the app running, tap the USB name.
2. Type in the password (11223344, factory default)
3. Tap Unlock.

For security, we strongly suggest changing the factory password to your new password.

Password Requirements

- 7-15 digits, special characters okay
- Cannot all be the same number/letter nor consecutive numbers/letters

CAUTION : Risk of loss of data. If you forget your password, all data will be inaccessible and reformatting will be required.

Changing the Password

1. Log in to the app and unlock the drive.
2. Tap the desired USB name.
3. Tap **Change Password**.
4. Enter your old password.
5. Enter your new password (see requirements below) and then retype it into the *Confirm* field.
6. Tap **Change Password**.

Disconnecting and Locking

Unplug the USB—it locks automatically.

Generally, ejecting the USB first is not necessary.

To lock the USB without unplugging it, swipe the drive name left and tap the Lock icon.

More Online

For more features and for troubleshooting, see the SecureUSB BT User Manual on the USB drive or on our website.
